

PTG's first year as an independent legal entity marks a major milestone for the organization. In its first six months, PTG has built strong momentum through increased engagement with policymakers, regulators, exchanges, and clearing houses. Our 2026 priorities span digital asset legislation, Reg SHO, Reg NMS, disruptive trading rules, Treasury clearing, prediction markets, reporting reform, exchange outages and migrations, disaster recovery planning, and cloud strategy. Across these issues, PTG has positioned itself as a practical, implementation-focused policy partner that helps regulators and market infrastructure providers understand real-world impacts while protecting market liquidity, stability, and member priorities.

All the Numbers

9 Comment Letters
1 White Paper
1 Amicus Brief

15 Meetings with Legislators, Regulators and Treasury
15 Meetings with Exchanges and CCPs
1 Congressional Hearing
